Guidance to Dispose of Excess H1N1 Vaccines

Vaccine Type	Thimerosal-Free	Live Virus	Contains Thimerosal	
How to Dispose	**Discard as Solid Waste**	**Send to DPH After Expiration** (DPH pays for disposal, shipping paid by provider)	**Send to DPH 2 Weeks Before Expiration** (DPH pays for disposal, shipping paid by provider)	**After Expiration Treat as Hazardous Waste** (follow DNR guidelines)
Vaccine NDC Number	• CSL Prefilled Syringes NDC: 33332-0519-01 • Sanofi Prefilled Syringes NDC 49281-0650-25 NDC 49281-0650-50 NDC 49281-0650-70 NDC 49281-0650-90	• MedImmune LAIV NDC: 66019-0200-10	• CSL Multi-Dose Vials NDC 33332-0629-10 • Sanofi Multi-Dose Vials NDC 49281-0640-15 • Novartis Multi-Dose Vials NDC 66521-0200-10 • Novartis Prefilled Syringes without needles NDC 66521-0200-02	• CSL Multi-Dose Vials NDC 33332-0629-10 • Sanofi Multi-Dose Vials NDC 49281-0640-15 • Novartis Multi-Dose Vials NDC 66521-0200-10 • Novartis Prefilled Syringes without needles NDC 66521-0200-02
Handling Instructions	Ensure needles are not attached and discard as normal solid waste in trash.	Ship vaccine to: DPH/H1N1 1 W WILSON ST RM B251 MADISON WI 53703	Ship vaccine to: DPH/H1N1 1 W WILSON ST RM B251 MADISON WI 53703 **Vaccine must be received *prior* to expiration date or MUST be managed as hazardous waste at the expense of the provider**	The above vaccines must be treated as hazardous waste in accordance with state and federal rules (see DNR PUB-WA 841-10) and be managed by one of the options listed below **at the expense of the provider**

Hazardous Waste Disposal Options for H1N1 Monovalent Vaccine

PUB-WA 841-10 Option 1 Not applicable to H1N1 vaccines

PUB-WA 841-10 Option 2 Manage under the state of Wisconsin hazardous waste management contract. All state of Wisconsin agencies, institutions and campuses are ***required*** to use the state contract. Additionally, Wisconsin municipalities ***may*** use the state contract.

PUB-WA 841-10 Option 3 Transport the waste to a Wisconsin very small quantity generator (VSQG) hazardous waste collection facility

PUB-WA 841-10 Option 4 Contract directly with a hazardous waste management company for the disposal of expired vaccine.

Note: Please see separate guidance for management of ancillary items

Guidance to Managing Excess H1N1 Ancillary Supplies

The H1N1 ancillary supplies (needles, syringes, sharps containers, alcohol swabs) were provided by the federal government at no cost to the state of Wisconsin or to the provider.

You may:

- Keep the ancillary items and use as needed, but you may not charge for these items.
    - You may use the items as needed (e.g., TB testing, other vaccine administration, etc.) as long you don't charge for them.
    - We understand that some inventory management systems will not accept a cost of $0.00 so in these cases you may charge $0.01.
- Return the ancillary items to DPH at your expense.

  Ship to:
  DPH/H1N1
  1 W WILSON ST
  RM B251
  MADISON WI 53703

  You may use any commercial carrier (USPS, FedEx, UPS) to return ancillary items. There are no special handling requirements for shipping ancillary items. Items should be packed in a sturdy box, taped and marked in accordance with the shipper's requirements.

You may not:

- Donate these items to other parties
- Charge for these items

If you have questions please send an e-mail to: DHSH1N1Vaccine@wisconsin.gov
